

WELCOME 115TH CONGRESS:  
**LET'S MAKE MEDICAL  
INNOVATION A PRIORITY.  
REPEAL THE DEVICE TAX.**

Congress, let's make innovation, job creation and patient care a priority in 2017 by swiftly repealing the medical device tax for good.

The temporary suspension is working: Companies are increasing investment in R&D, re-starting delayed projects, and adding much-needed jobs to the U.S. economy. **But it's not enough. Early action this year is necessary to continue sustained investment for life-changing medical technologies.**

AdvaMed welcomes the 115th Congress and asks that you permanently repeal the medical device tax.
