

AdvaMed Women's Executive Network 2016-2017 Leadership Circle

Sandy Babey

Vice President & General Manager, US Region
BD

Sandy Babey joined BD (Becton, Dickinson & Company) in 2014 as VP/GM, US Region Strategic Customer Group responsible for the strategic account management, customer marketing and solutions teams representing the BD enterprise at our most important customer segments in the US Region. Prior to joining BD, Sandy spent 15 years with increased leadership responsibilities at Johnson & Johnson in the medical device and pharmaceuticals sectors in areas such as Strategic Market Development leading business model transformation, Global Marketing, US Marketing, Health Economics and Account Management. Prior to Johnson & Johnson, Sandy began her career in health care working in companies like Aetna Health Plans and Medco Health Solutions.

Sandy holds her Masters of Public Administration in Health Administration and Management from New York University and her Bachelor of Science in Business Administration from University of Rhode Island.

In addition to her work and educational experience, Sandy has also served on the Board of Trustees at Robert Wood Johnson /Somerset Medical Center and Easter Seals of NJ Boards.

Sandy resides in Oldwick, NJ with her husband, Paolo and their son, Christian who is a senior at the University of Denver.

Yin Becker

Vice President, Communications and Public Affairs
Stryker

Yin Becker has 27 years of experience in the medical technology industry. Yin serves on the Stryker Executive Leadership Team and is responsible for developing and implementing brand, communication and public affairs strategies that enhance Stryker's position and reputation as a global med-tech leader. In addition, she leads Stryker's social responsibility and government affairs teams.

She served on leadership committees, including the Healthcare Institute of NJ Board of Trustees, Ramapo College Board of Governors, The Women's Fund Board Member, and Commerce and Industry Association of NJ (CIANJ) Board Member. Yin has been a member of Stryker's Women's Network and Marketing Council since the inception of these groups and she was the recipient of the Tribute to Women in Industry Award, Healthcare Businesswomen's Association "Rising

Star" and CIANJ Women of Influence Award recipient.

Ann Bunnenberg

President and COO
Electrical Geodesics, Inc. (EGI)
*AdvaMed Board of Directors
*AdvaMed Accel Board of Directors

Ann Bunnenberg is the President, Chief Operating Officer, and Co-Founder of Electrical Geodesics, Inc., a Eugene, Oregon-based company that develops, manufactures and markets functional imaging and neuromodulation products for medical, neuroscience research, and human performance evaluation applications worldwide. EGI's currently marketed products are used to image changes in the functioning of the human brain for such diverse medical

applications as epilepsy evaluation, neonatal intensive care, digital EEG, and stroke.

Ann received both her PhD and JD from the University of Oregon. She is a business attorney with over 30 years experience in representing clients in the health care and medical software industries.

She is an active participant in economic development and industry associations —currently serving on the Board of AdvaMed (the world's leading medical device trade association) and is Chair and Technical Advisor for the Key Industries Committee of Oregon Inc. (Economic development through innovation). She also serves on the Board of Qmetrix Inc., a medical cost containment company and the Equity Foundation, a social justice focused charitable foundation.

Linnea Burman

Vice President and General Manager, Neuro Gastro Urology
Medtronic

Linnea is the vice president and general manager of the Gastro Urology business at Medtronic. She was previously US Director of Marketing for Pain Stimulation & Targeted Drug Delivery and Global Director of Marketing for Targeted Drug Delivery.

Through her work at Medtronic, Linnea has been an advocate for patients with pelvic floor disorders, gastroparesis, severe spasticity and chronic pain. She actively partners with cross functional teams as well as

patients and families, clinicians, professional societies and patient advocacy groups.

Linnea has been recognized with the Wallin Leadership Award, Field Partnership Award and the Neurological Value Proposition Award.

Prior to Medtronic, Linnea held several positions in public relations at Marriott International in Washington, D.C., and LaBreche Public Relations and Carlson Companies in Minneapolis. Linnea received her BA in Communication Studies from Virginia Tech.

Other Affiliations

Linnea is a member of the Board of Directors for the National Association for Continence, the Advisory Board for the Linkage Women in Leadership Institute, the Research Board for the American Society for Colon and Rectal Surgery, Board of Governors for the Children's Theatre Company, and executive committee for the MN Chapter of the Virginia Tech Alumni Association.

Cathy Burzik

CEO
CFB Interests

Catherine (Cathy) Burzik is a seasoned senior executive in the healthcare industry. Cathy has successfully led major medical device, diagnostic, diagnostic imaging and life sciences businesses. Most recently she served as President, Chief Executive Officer and Director of Kinetic Concepts, Inc. (NYSE: KCI), a leading medical device company specializing in the fields of woundcare and regenerative medicine. KCI was taken private by Apax Partners in 2011 for \$6.1B (9 X EBIDTA). During her tenure KCI's stock price doubled. Cathy led significant product innovation, global expansion as well as diversification into regenerative medicine through the \$1.7B acquisition of LifeCell.

Prior to joining KCI in November 2006, Cathy served as President of Applied Biosystems, the leading life sciences DNA sequencing company. Cathy has also held senior executive positions at Eastman Kodak and Johnson & Johnson (J&J). At Eastman Kodak, her positions included CEO and President of Kodak Health Imaging Systems and General Manager/Vice President of Corporate Marketing. At J&J, she led the Critikon and Ortho-Clinical Diagnostics, Inc. businesses.

Cathy is currently a general partner at Targeted Technologies, an early stage venture capital firm focused on medical device, life sciences and biotech investments. She has extensive public and not-for-profit Board experience. Cathy is a member of the Board of Directors of Becton-Dickinson and Company (NYSE: BDX); a member of the Board of Directors of Cytocentrics GmbH; Chairman of the Board of Directors of the American College of Wound Healing and Tissue Repair; and Chairman of the Board of StemBioSys, Inc. Cathy served as Chairman of the Board of Directors of the San Antonio Branch of the Dallas Federal Reserve Board. She was a member of the Board of Directors of ViroXis Corporation; the Board of Directors of Allscripts, Inc. (NASDAQ: MDRX); the Board of Directors of Bausch & Lomb; the Board of Directors of Cordis Corporation; the Board of Directors of the medical device industry trade association, AdvaMed, where she chaired the Woundcare and Tissue Regeneration Sector; Chairman of the Board, VitaPath Genetics Inc.; Chairman of the Canisius College Board of Trustees; and, a member of the Board of Trustees of the Keck Graduate School of Applied Life Sciences. In 2012, Cathy founded the Catherine M. and Francis N. Burzik Foundation dedicated to furthering higher education and the performing arts.

Cathy's education includes a bachelor's degree in Mathematics from Canisius College in Buffalo, New York, and a master's degree in Mathematics from the University of Buffalo. She has attended executive management programs at Penn State, Northwestern University's Kellogg School of Management, and the Center for Creative Leadership.

Cathy and her husband, Frank, are avid competitive ballroom dancers. They are both from Western New York and currently reside in San Antonio and New York City.

Dottie Clower

Chief Scientific Officer
Cohera Medical, Inc.

Dr. Clower was instrumental in the early formation of Cohera dating back to 2003 and led the development of Cohera from its ideation to its successful seed financing. She currently leads Cohera's product development program, and her team successfully brought the company's lead product TissuGlu® from laboratory prototype through FDA approval as a Class III PMA medical device. Prior to joining Cohera, she specialized in commercializing early-stage technologies through her leadership position in the University of Pittsburgh's Office of Enterprise Development. Dr. Clower is a neuroscientist and chemist with over twenty years of research experience in both industrial and academic environments. Her work has been published in Nature, Journal of Neuroscience, Journal of Neurophysiology, Cerebral Cortex and Plastic and Reconstructive Surgery. She also brings experience from Baxter Healthcare where she worked on the development of pre-mixed I.V. drug delivery systems within Baxter's

Pharmaceutical R&D Division. Dottie holds a B.A. in Chemistry from Northwestern University in Chicago and a Ph.D. in Neuroscience from Emory University in Atlanta. In 2012, she cofounded the Pittsburgh chapter of Women in Bio and served as Chapter Chair until 2014. She is also a member of the Women Presidents Organization (WPO).

Sheri Dodd, MSc.

Vice President and General Manager, Medtronic Care Management Services
Medtronic

Ms. Dodd has over 23 years of experience in healthcare, bridging functional and business leadership roles across the pharmaceutical, medical device and international public health sectors.

In June 2015, Sheri was appointed as the Vice President and General Manager for the Medtronic Care Management Services (MCMS). The MCMS business includes patient monitoring services, a value-based healthcare solution for improving outcomes and reducing the total cost of care for all levels of acuity and across multiple disease states. In her role, she also leads new business model creation in

the area of post-acute care. Sheri joined Medtronic in March 2010 and had leadership responsibilities for the global Clinical Research organization and the Health Economics, Reimbursement, and Health Policy organization within the Cardiac Rhythm & Heart Failure (CRHF) business. In 2014, she had additional responsibilities as Vice President, Economic Value for the Cardiac and Vascular Group (CVG).

Prior to joining Medtronic, Sheri spent 13 years at Johnson & Johnson in a variety of regional and global pharmaceutical and medical device positions focused on health economics, reimbursement and value proposition development and dissemination for external stakeholders. Prior to joining Industry, Sheri spent 5 years at the World Health Organization in Geneva, Switzerland and after returning to the US she worked in an office-based clinical practice, leading the implementation of clinical office-based outcomes research studies.

Sheri earned a joint Master's of Science degree from the London School of Economics and the London School of Hygiene and Tropical Medicine.

Lisa Earnhardt

President and CEO
Intersect ENT

Lisa Earnhardt leads Intersect ENT (NASDAQ: XENT), a medical technology company dedicated to improving the quality of life for patients with ear, nose and throat conditions having led the company from the early clinical stage. Previously, she was President of Boston Scientific's Cardiac Surgery division. Lisa has over two decades of experience in healthcare, primarily in leading global product launches and driving adoption of new medical technologies at both Boston Scientific and Guidant. Lisa began her career at APM/CSC Healthcare where she provided management consulting services to healthcare provider organizations. She received a Bachelor of Science in industrial engineering from Stanford University, and holds an MBA from Northwestern's Kellogg School of Management. Lisa serves on the boards of Intersect ENT and Nevro Corporation (NYSE: NVRO). Lisa is a member of the Kellogg Global Advisory Board and Young Presidents' Organization.

Christina Farup, MD, MS

Vice President, HEMA Americas, Lead
J&J Medical Devices

Christina Farup, MD, MS leads the Health Economics and Market Access (HEMA) function for the J&J Medical Devices Company in the United States, Canada and Latin America. In this role, Dr Farup leads a team responsible for the development and execution of strategies related to demonstrating the value of J&J's Medical Devices and services to support market access with a focus on the economic buyer. In addition, the HEMA organization provides expertise on reimbursement and health policy related issues including quality, new payment models, comparative effectiveness, and patient reported outcomes. Christina has over 20 years experience with Johnson and Johnson in the pharmaceutical and the medical device sectors. Areas of expertise include gastroenterology, women's health, general surgery, orthopedics, epidemiology, patient reported outcomes, and comparative effectiveness.

Dr. Farup was awarded her M.D. degree from the Medical College of Virginia and completed her internship in Family Practice and is board certified in Preventive Medicine. She completed her Masters degree in Preventive Medicine at the University of Maryland.

Nefertiti A. Greene

Vice President, Global Platform Leader, Wound Closure & Repair
Ethicon, Johnson & Johnson

Nefertiti currently leads the global Wound Closure & Repair platform business at Ethicon (part of the Johnson and Johnson family of companies). In this role, Nefertiti leads the global Wound Closure & Repair Platform Leadership Team (PLT) which is responsible for driving growth and innovation for this \$3B business encompassing both suture and repair. Additionally, she leads both the Ethicon franchise strategic pricing and global digital organizations. Nefertiti is a member of

the Ethicon Global Management Board (GMB).

Prior to joining Ethicon in July 2016, Nefertiti was President of Janssen Therapeutics, where she led the U.S. infectious diseases commercial organization, the Janssen Digital CoE (DCoE), and was a member of the Janssen Americas Leadership Team (JALT). Nefertiti is a proven commercial leader with over 23 years of industry experience in both pharmaceuticals and medical devices, across the areas of pre-clinical research, clinical research and commercial operations. Prior to joining J&J in 2014, Nefertiti was Vice President, Country Division Head of Diabetes Care at Bayer HealthCare where she had full P&L responsibility for the US and Puerto Rico businesses. Nefertiti earned a Bachelor of Science degree in Biology/Chemistry from the State University of New York (SUNY) at Albany, and a Master of Public Health in Biostatistics from New York Medical College.

Deb Kilpatrick

CEO
Evidation Health

Deborah Kilpatrick, PhD is the CEO of Evidation Health, a digital health company backed by GE Ventures, Asset Management Ventures, and Rock Health. The Evidation Health platform demonstrates digital health impact through machine learning and analytics of medical, behavioral and contextual data at the patient-consumer level. Prior to her role at Evidation Health, Deborah was the Chief Commercial Officer of genomic diagnostics company CardioDx, whose Corus CAD product was named in the Wall Street Journal Technology Innovation Awards, TIME Magazine's Top 10 Medical Breakthroughs, and the Edison Awards. Earlier in her career, Deborah held multiple leadership roles at Guidant Corporation, including Research Fellow, Director of R&D, and Director of New Ventures in the Vascular Intervention Division. She serves on the Georgia Tech Advisory Board, chairs the Georgia Tech College of Engineering

Advisory Board, and is a Fellow of the American Institute of Medical and Biological Engineering. Deborah is a co-founder of the MedtechVision Conference now held annually in Silicon Valley, and she has been named to FierceBiotech's Top Women in Biotech, FierceMedicalDevice's Top Women in Medtech, and Silicon Valley Business Journal's 100 Women of Influence. She holds B.S., M.S. and Ph.D. degrees in mechanical engineering with a bioengineering focus from Georgia Tech.

Betty Larson

Vice President, Global Human Resources
C. R. Bard, Inc.

Betty joined Bard in 2014 after 16 years with Baxter Healthcare; bringing senior leadership experience from two long serving AdvaMed companies. As an integral part of our senior team, she plays an important role in the development our leadership talent and the cultivation of our global culture. With a great deal of passion, creativity and hard work, Betty has transformed the HR function, launched a well adopted Global Inclusion Strategy, revamped our Performance Management Processes and introduced our Bard Leadership Model. In a little over two years, she has proven to be a trusted advisor and influential senior leader for Bard.

Tracy MacNeal

Executive Vice President, Corporate Development
Ximedita

As EVP of Corporate Development for Ximedita, Tracy serves to identify, complete, and integrate the company's acquisitions into a sustainable and profitable strategy, supporting the growth of the larger organization as well as each and every employee. Tracy brings over 20 years in building healthcare businesses both organically and through M&A. With a broad range of roles and transactions with large companies such as Merck, Tracy brings the global perspective needed for Ximedita's largest clients. Having served as CFO and VP of Business Development in the medical device startup space, she understands the need for creativity and flexibility that startup clients need to succeed. Tracy holds a Bachelor of Engineering from The Cooper Union for the Advancement of Science and Art, and an MBA

from Duke University (Fuqua School of Business). Tracy enjoys gardening, working out, and cooking, but her favorite hobby is relaxing with her two children, ages 10 and 14.

Sally L. Maher

Vice President
Edwards Lifesciences

Sally L. Maher has been VP of Regulatory & Clinical Affairs since May 2012. She has more than 25 years of medical device and combination product experience in regulatory, clinical, reimbursement, healthcare compliance and product development. Prior to joining Edwards, Maher held various Senior Vice President of roles at Smith & Nephew's Advanced Surgical Products Division including, Regulatory & Clinical Affairs, Reimbursement & Healthcare Economics, Healthcare Compliance, Research & Development, and New Business Development. Prior to Smith & Nephew, Maher worked in Regulatory Quality & Clinical for various organizations including J&J, Pfizer & FDA. She received a bachelor's degree from Ohio Wesleyan University, and a law degree from the University of Baltimore.

Judy Meritz

Partner, Meritz & Muenz LLP and Former FDA Counsel, Corporate Legal Regulatory, Medtronic

Judith joined the Medtronic Legal-Regulatory team following the merger between Covidien and Medtronic. She served as Associate General Counsel at Covidien beginning in October 2010 through September 2015. She specializes in compliance counseling concerning Food and Drug Administration (FDA) and other international regulatory authority matters including inspections, enforcement actions, product approval strategies, marketing and advertising programs, quality control and complaint handling. Formerly she was a shareholder at Baker Donelson, Berman, Caldwell & Berkowitz, PC and previously a partner at Blank Rome LLP. Judy served as Assistant General Counsel for the American Red Cross (ARC) with emphasis on compliance with the FDA amended Consent Decree. She also served as Vice President, Regulatory Affairs at E-Z-EM, Inc., a manufacturer of drugs, devices and diagnostics. Former positions include Director of Regulatory Affairs for

Henry Schein, Inc., a worldwide distributor and private labeler. She began her legal career as an Assistant Regional Counsel for the U.S. Environmental Protection Agency, Region II. She currently serves on the Advisory Board for BNA's Medical Device Reporter. Ms. Meritz received her BA from American University, dual master degrees in Higher Education and Political Science from the University of Michigan and her law degree from Pace University.

Maureen L. Mulvihill

CEO
Actuated Medical, Inc.

Maureen L. Mulvihill, Ph.D., President and CEO, co-founded Actuated Medical in 2006 with a vision to integrate piezoelectric and other controlled actuation technologies into medical devices to improve patient outcomes. She is responsible for the company's corporate vision and maintaining its vibrant culture. In addition, she directs commercialization efforts working closely with clinicians and acquisition partners to ensure products are viable in real world settings. Prior to Actuated Medical, she worked at several small technology firms developing piezoelectric motors, adaptive optics and medical devices.

She has been a Finalist for the Ernst & Young Entrepreneur of the Year® Award for the Western Pennsylvania and West Virginia region twice. She has also been recognized by PA Business Central as "One of the Top 100 Business People in Central Pennsylvania" several times. She is an alumni of the 2015 Goldman Sachs 10,000 Small Business National Scholar Program. Most recently, she was recognized as Entrepreneur of the Year by the Chamber of Business and Industry Centre County Pennsylvania. She earned her Ph.D. from Penn State in Materials, with a focus in piezoelectric actuator and transducer applications.

Carla Monacelli

Vice President, Government Affairs and Market Access
LivaNova

Jennifer Paine

Executive Vice President, Worldwide Quality, Regulatory, and Compliance
Ortho Clinical Diagnostics, Inc.

*AdvaMed Dx Board of Directors

Jennifer M. Paine, Executive Vice President of Worldwide Quality, Regulatory and Compliance at Ortho Clinical Diagnostics, Inc. which is headquartered in Raritan, NJ. Ms. Paine is a member of the OCD Executive Leadership Team and is responsible for leading the company's worldwide quality, regulatory affairs and compliance organizations.

Ms. Paine has also served in roles as Vice President of Regulatory Affairs for OCD, Therakos, Inc. and Veridex, LLC. Prior to joining OCD, Paine was in Regulatory Affairs roles of increasing responsibility for Ethicon, Inc., a Johnson & Johnson company, including serving on the Management Board for the Women's Health & Urology business unit. Paine started her career in R&D and moved into Regulatory Affairs while working at Baxter Healthcare in Chicago, IL.

She has received numerous awards throughout her career, including four Standards of Leadership Awards from Johnson & Johnson, and she was also recognized as part of Medical Device & Diagnostic Industry magazine's Outstanding Quality & Regulatory Teams (2007), and she received the Baxter Achievement Award for Validation of Virus Removal and Inactivation in the Manufacture of Diaspirin Crosslinked Hemoglobin (1997).

Ms. Paine earned a Bachelor of Science in biology from Rhodes College and a Master of Science in zoology from Southern Illinois University. She holds a Regulatory Affairs Certification from the U.S. Regulatory Affairs Professional Society, a Regulatory Affairs Dual Certificate in Medical Devices and Pharmaceuticals, and has completed a Johnson & Johnson Executive Quality Leadership Development Program. In 2015, she was selected to join the distinguished class of RAPS Fellows, which recognizes senior regulatory professionals for their significant contributions and leadership in advancing the regulatory profession and the Regulatory Affairs Professionals Society (RAPS).

Maria Palasis

President and CEO
Arsenal Medical and 480 Biomedical

Maria Palasis is President and Chief Executive Officer of 480 Biomedical and Arsenal Medical. She has been with 480 Biomedical, and sister company Arsenal Medical, since 2008. During her time with 480 Biomedical and Arsenal Medical, Maria was instrumental in leading the company from pre-clinical stage to the clinic on multiple programs. In addition, she secured a strategic partnership with a large medical device company and oversaw the raising of over \$50M in non-dilutive funding from the government. Prior to joining 480 Biomedical, Maria was R&D director at Boston Scientific, where she managed a portfolio of external biotech and medical device instruments. Maria was an early member of the team that created the TAXUS® drug-eluting stent, the single most important revenue generator for Boston Scientific at \$3B/year. She held a number of positions within Boston Scientific that included directing the development of combination therapies, managing strategic partnerships and building the company's centralized infrastructure for cell-based biological testing. Maria received her Bachelor of Science and Doctorate in Chemical Engineering from the University of Cincinnati, and she held a postdoctoral fellowship in molecular biology at the University of Cincinnati School of Medicine. Maria is an inventor on more than 120 issued and pending patents.

Erica Rogers
President and CEO
Silk Road Medical Inc.

Erica Rogers is the President and CEO of Silk Road Medical. Prior to Silk Road Medical, Erica was the COO of Medicines360, a non-profit pharmaceutical company developing drugs and devices for women. Erica was the founder and CEO of Allux Medical, as well as the co-founder of Visiogen, which was acquired by Abbott Medical Optics in 2009. Erica spent over 12 years at Boston Scientific, in sales and marketing positions. She began her career in pharmaceutical sales after receiving a B.S. in zoology from San Diego State University. Erica holds five issued and 15 pending US patents in medical devices and nanotechnology.

Martha Shadan
President and CEO
Rotation Medical, Inc.
*AdvaMed Accel Board of Directors

Martha Shadan joined Rotation Medical in 2013 as President & CEO with over 30 years of experience as a business leader in a variety of organizations. Prior to joining Rotation Medical Martha was the President of the Trauma Division at Zimmer where she managed the P&L for the global business. Martha served at Covidien as VP/General Manager of Vascular Therapies and VP/General Manager BioSurgery and Sports Surgery. Other companies that have benefited from Martha Shadan's experience and leadership include Bristol Myers Squibb Co. and Merck Millipore. Martha holds a M.B.A from Northeastern University, M.S. Biology, Michigan State University, and B.S. Biology, University of New Hampshire.

Maria Shepherd
President
Medi-Vantage

Maria Shepherd has 20 years of leadership experience in medical device/life sciences marketing in small start-ups and Fortune 100 companies. Following an industry career Vice President of Marketing for Oridion (acquired by Covidien) Medical, Director of Marketing for Philips Medical, and Group Marketing Manager for Boston Scientific, she founded Medi-Vantage. She has served on the corporate board of the Anesthesiology Patient Safety Foundation.

Medi-Vantage focuses exclusively on the healthcare/ life sciences market. We are experts and leaders in:

- Product development innovation research
- Medical device marketing strategy
- Traditional medical market research
- Marketing services for the medical device, biotech and diagnostics industries

Offering a rare blend of strategic and organizational strengths, Maria is recognized for developing new products and growing sales and profits as Vice President of Marketing for Oridion Medical. She brought Oridion to record sales/ profitability through major shifts in brand strategy, product design, marketing communications, and clinical education, and is known for her ability to quickly diagnose growth impediments and apply data-driven solutions.

Maria received her MBA, magna cum laude, from Babson College, cited by USA Today as the top US entrepreneurial program. Her BA in Biology is from University of Pennsylvania.

Lena Söderström

CEO
Senzime

More than 25 years of management experience in international pharmaceutical, diagnostic and medical device industry. Extensive leadership experience from putting together and manage international and national teams. Experience from a broad range of functions; e.g. general management, project management, business development, international marketing and manufacturing. Wide network of fellow senior colleagues and peers in the industry.

I have during the years been driving for growth but also taken active part in restructuring, downsizing and changing directions of many types of organizations. I have negotiated and finalized mergers and global customer agreements and I have taken active part in two IPO's. I have set up companies, appointed distributors and formed partnerships to accelerate business entry and growth in the B2B sector. Full P&L responsibilities and strong track record of performance.

I am a committed leader with the ability to motivate and develop people, always aiming to deliver in terms of goals and results.

Caroline West

Global Chief Compliance Officer
Olympus Corporation

Caroline West was appointed Global Chief Compliance Officer for Olympus Corporation on April 1, 2016 leading a compliance program with professionals located in Japan, Asia, the Americas, Europe, the Middle East and Africa. She joined Olympus Corporation of the Americas in January 2016 as Chief Compliance Officer for the Americas. Prior to joining Olympus, she served over 10 years as Senior Vice President, Chief Compliance & Risk Officer for Shire Pharmaceuticals where she was responsible for building and leading a global compliance program. Prior to Shire, Caroline spent nearly 5 years with Aventis (later Sanofi) as VP Global Legal Compliance. Earlier in her career, she spent time in various legal and compliance positions at Rhone Poulenc Rorer, UGI Corporation and Pepper Hamilton LLP, where she began her career as a litigation associate.

Ms. West has an AB from Smith College and a JD from Penn State - Dickinson Law. She and her husband live in Philadelphia, PA and have two adult children.

AdvaMed

Advanced Medical Technology Association
Women's Executive Network

Kristin Wyeth

Senior Program Manager, MBS
Medtronic

Kristin is currently leading enterprise-wide programs in collaboration with functional partners to achieving large-scale operational efficiencies and cost savings. During her distinctive journey through Medtronic, she has led both technical and non-technical teams across IT, Quality, Manufacturing Operations, Supply Chain, Marketing, and Sales organizations.

Kristin has been the recipient of two team CIO Awards, the highest recognition awarded to Global IT employees and teams. It recognizes outstanding achievements and an unwavering commitment to exemplifying the Medtronic Core Behaviors.

Kristin holds a Bachelor of Arts degree in Communication from St. Catherine University and is also a Certified Project Management Professional (PMP). She lives in Minnesota and has an amazing daughter, Lauren, who lives in Ohio.
