**To whom it may concern**

The Ministry of Health of Ukraine expresses its deep respect to you and addresses the following.

Since the night of 24th of February, Ukraine is under a full-scale attack of Russia. Ukraine is now bravely fighting the Russian occupiers, defending our homeland, and protecting the Ukrainian nation. Russian missiles and air strikes are targeted for civil zones. Russian Federation air forces uses cassette and non-controlling bombs. All this leads to destroying of homes, hospitals, and death of civilians.

The Ukrainian cities are under shelling, with missiles often hitting civilian living quarters, and even functioning hospitals. Ambulances are regularly under fire. Unfortunately, we suffer losses among doctors, drivers, patients when we leave to provide emergency care. A lot of medical infrastructure are directly destroyed. As a result of constant shelling and destruction, disruption of logistics networks, many patients are at risk of being left without access to medicines.

The world does not stand aside and constantly provides humanitarian aid to Ukraine.

We are sincerely grateful to our international partners for their support and assistance. However, the war continues and we continue to seek aid.

We would like to kindly ask you to support the Ukrainian people, who are in immediate need of receiving proper and timely medical care, by supplying us with the humanitarian aid of medical purpose.

In this regard, the Ministry of Health of Ukraine kindly requests you to provide humanitarian assistance to Ukraine according to the list attached.
