D744,639	Cannula tip
9,289,295	Tissue restraining devices and methods of use
9,402,938	System and method for removing undesirable material within a circulatory system utilizing during a surgical procedure
9,456,888	Reversible vascular filter devices and methods for using same
9,492,653	Systems and methods for removal of intravascular leads
9,554,906	Tissue restraining devices and methods of use
10,213,245	Continuous flow balloon catheter systems and methods of use
10,252,034	Self-anchoring catheters and methods of use
10,335,189	Systems and methods for percutaneous division of fibrous structures
10,383,983	System and methods for removing undesirable material within a circulatory system utilizing during a surgical procedure
10,426,940	Intraosseous infusion ports and methods of use
10,434,296	Intraosseous infusion ports and methods of use
10,517,617	Systems and methods for removing undesirable material within a circulatory system utilizing a balloon catheter
10,687,883	Continuous flow balloon catheter systems and methods of use
11,141,186	Systems and methods for percutaneous division of fibrous structures
11,259,837	Systems and methods for percutaneous division of fibrous structures
11,511,081	Self-anchoring catheters and methods of use
11,589,880	Systems and methods for removing undesirable material within a circulatory system during a surgical procedure
11,668,404	Systems and methods for variable flow resistor
