

The Power of MedTech: Utah

AdvaMed is the leading national trade association promoting medical technology to achieve healthier lives worldwide.

The United States is the largest incubator for lifesaving, life-enhancing medical technology, leading a global industry. Each state has a medtech presence, from multinational corporations to the vast majority of medtech companies, startups (94 percent) with fewer than 20 employees (82 percent). All play a critical role, from creating new technology to diagnose cancer and manage diabetes to supplying heart valves, knee replacement joints, and complex scanners to detect disease or injury.

Utah is the eighth-biggest medtech center nationwide in revenue and ninth-biggest in jobs and payroll. Medical device and diagnostics manufacturers drive significant economic value to the state, local communities, and residents, from providing opportunities for high-skilled and high-paying jobs in various sectors to pioneering life-changing health care technologies for patients all over the world.

BIOUTAH
UTAH'S INDEPENDENT LIFE SCIENCE ASSOCIATION

BioUtah is the State Medtech Alliance member organization in Utah.

15,800 jobs

in Utah are supported by medtech
